### Segunda Familia de Mangas

de corte informal

Las mangas informales de "copa baja" tienen hoy una enorme presencia en la moda, especialmente en diseños infantiles o de corte masculino. Irrumpieron en el mundo de la moda de la mano de las líneas deportivas de corte informal y amenazan con quedarse definitivamente pues, además de la comodidad de la postura, suman el enorme beneficio de ser muy fáciles de coser.

Estas mangas no llevan embebido en la copa y pueden colocarse a la prenda abierta o tipo "sapito".

Unir primero los hombros, coser a continuación la copa al cuerpo y finalizar con la unión del costado de la manga y cuerpo en un solo tramo de costura

**¡Atención!**  
No existe una manga para cada sisa.

En las mangas tradicionales que llevan embebido se cierran primero los costados de cuerpo y mangas, y se finaliza con la costura en redondo de la capa de la manga, embebiendo apropiadamente el copete de la misma.

En el mismo trazado del cuerpo se pueden coser diversas mangas, acotadas simplemente por las particularidades del diseño elegido.
